ABOUT ME

I am an iOS developer with a focus on user experience and sustainable architecture (MVVM), having managed the end-to-end (design, development, publishing) of a total of 5 different applications on the App Store.

EDUCATION

2024- 2025 **Anadolu University | Computer Programming**
Associate Degree in Computer Programming

WORK EXPERIENCE

2024 - Now **Freelance / Independent Developer**
I develop end-to-end iOS solutions for individual and corporate clients, and publish scalable applications on the App Store using Swift and SwiftUI.

APP STORE PROJECTS

Freelance / Independent Developer * iPreggy – Pregnancy Tracker Project (Aug 2025 – Jan 2026)

Delivered a comprehensive end-to-end pregnancy health tracking solution for a corporate client.

Tech stack: Swift, SwiftUI, Firebase (Authentication, Firestore)

Focus Next – New Assistant

Versatile timer app with over 1,207+ users. Includes customizable timers, relaxing sounds, and note-taking.

Tech stack: Swift, SwiftUI, Firebase, RevenueCat

English Pro – Speaking English

Helps users quickly improve vocabulary and pronunciation with audio listening.

Tech stack: Swift, SwiftUI, Firebase, AVFoundation

Routine Tasks – Daily Routines

Routine and goal tracker with reminders and progress monitoring.

Tech stack: Swift, SwiftUI, UserNotifications

Istanbul Guide – City Companion

Lifestyle app with photo sharing, location-based discovery, reviews, and social features.

Tech stack: Swift, SwiftUI, Firebase, Cloud Firestore
